

Croxx stabil

stabil 26

The most known single stabilized Nitrogen Fertilizers with **3.4 DMPP**.
Its high NH_4 content secures optimum effect of the Nitrification Inhibitor.

For all crops and grassland

Green colored.

For field application

Content (% w/w): 26.0 N / 32.5 SO_3

Bulk density (g/l): 950-990 / **pH:** 3.5-4.0 / **Average granule size (mm):** 2.0-5.0

Benefits

- ✓ Balanced Nitrate and Ammonium N-content
- ✓ Low in chlorine
- ✓ Contains 32% SO_3
- ✓ Environmental benefits (less groundwater pollution and greenhouse gases)

Packing: 25 kg and Big Bag
