

CroxX stim

Antisal eco

Liquid salinity and calcium corrector.

Contains specific carboxylic acids to reduce conductivity of soil solutions and relief of salt stress.

With Lignosulfonates that function as osmotic stress regulator.

For foliar application and fertigation

Content (% w/w)

8.5 CaO

10.0 Acetic acid / 4.0 Formic acid

Bulk density (kg/l): 1.17 / pH: 4.2

CE certified

Antisal eco

Benefits

- ✓ Reduces soil salinity and improves soil properties
- ✓ Stimulates vigorous root growth and water uptake
- ✓ Increases the effectiveness of fertilizers

Packaging: 1l / 5l / 20l / 1000l
